Overview

The affordable all-round mixer for modern building materials.

The batch mixer can be used for a wide variety of materials such as mortar, adhesive, plaster, grouting materials, putty and much more. The mixer scores with excellent mixing results, rapid bottom discharge, compact and robust design, and large transport rollers for the rigours of construction site. Ideal for stucco plasterers, screed installers and tilers, bricklayers and plasterers.

Applications

- | | | | |
|---|---|---|--|
|  Cement mortar |  Grouting |  Plaster |  Lime |
|  High-grade plaster |  Screed |  Adhesive |  Plaster and masonry mortar |
|  Plaster stone |  Coating compounds |  Light weight concrete | |

Advantages

- | | |
|--------------------------|---|
| Excellent mixing result | - From the vertical ribbon blender & mixing paddles combined. |
| Quick cleaning | - The mixing arm can be easily removed without tools and easily replaced. |
| Highest level of safety | - Through the interlock protection grill. |
| Central operating switch | - Provided with a quick stop button. |
| Simple transport | - Can be loaded easily by one person and fits in any car. |
| Easy and fast emptying | - Whether in buckets, mortar buckets or wheelbarrows through a segment slider integrated in the bottom of the drum. |
