Refractory high pressure nozzle system

The high pressure nozzle system is specifically designed for spraying all high density refractory materials. High pressure water and air atomizes before it penetrates the material being applied, allowing a perfectly hydrated set product.

Applications

- ☞ Blast furnace gunning
- ☞ Fire proofing
- ☞ Bridge repair work

Specs

- ☞ 8-10 bar air pressure required
- ☞ High pressure pump. 80 bar
10 litre a minute
- ☞ 380V
