ROCKCRETE SHOTCRETE TRAINING REQUIREMENTS

For training on our **ROCKCRETER** equipment and nozzle technique for nozzle operators the following is applicable:

Training at Rockcrete premises (Wadeville):-

6 members per crew = R8 900.00 + VAT (this is the minimum charge) and R1 680.00 + VAT per extra member.

On-site Training (not underground):-

6 member per crew = R14 800 + VAT (this is the minimum charge) and R1 680.00 + VAT per extra member. An additional cost of R6 500.00 + VAT will be charged should we use our own equipment.

REQUIREMENTS

1. We need ID copies sent to us of all the trainees attending before we arrange a date.
2. At least 2 machine operators, 2 nozzle operators and 2 for maintenance is recommended, general labourers are not required.
3. Dates for training are arranged for a **Wednesday only** and a minimum of five hours is required.
4. Trainees will be assessed on the day and not guaranteed a certificate.
5. Plan ahead for the training as we are booked way in advance.
6. If we do on-site training please ensure that all the equipment is set up for training on surface, we can however bring equipment with at an extra cost, depending where the site is.
7. On-site training will also require sand and cement, please ensure at least 1m³ of sand and 4 bags of cement and an area to spray, **Water, Power and Air Supply**.
8. We do not offer training on other equipment besides the **ROCKCRETER** range, we are **O.E.M's** and do not carry the risk assessments of other equipment.
9. Full PPE is required on training day.

I trust that you find this in order

Please contact us if you require further information
